

January 2022

Congratulations to Andra Dirtu, The Rotary Student of the Month in recognition of her excellence in Career and Technical Education (vocational). Andra joined DECA her freshmen year and truly had no idea the impact it would have on her life. She has worked in the student store, The Den, since she was a Freshman and she is very knowledgeable in the day-to-day workings of the store and understands the expectations and many of the intricacies of running The Den. Her DECA teacher, Mr. Mills, says that “Andra has been an outstanding DECA student since her Freshman year. As a senior and JHS DECA President, she consistently demonstrates outstanding work ethic, true resiliency, compassionate leadership, and high organizational skills. On top of that, she is a really kind and thoughtful person!” Moving on, she continues to use these lessons and will always cherish her time in DECA.
