Teacher Brianne's Newsletter

September 2024

## Message From Teacher Brianne

Welcome to the 2024–2025 school year! I look forward to seeing your children as services begin next week. As a way of introduction, this is my 15th year of teaching, 7 of the past years in this position. I have a son in the dual language program in our district and I enjoy spending time outdoors, books, videos and podcasts. The best way to contact me is through email: [byorlang@everettsd.org](mailto:byorlang@everettsd.org) as I am no longer allowed to use the google voice phone number for text messaging and voice calls. I do have a Parent Square account, but it is complicated to get my student list added, so it is not yet ready. You can also call and leave a voicemail for me at my desk phone (425) 385-5333. I may not get the voicemail right away, please allow a few days for a response. Thank you!

## Coming up...

**September 16**—Preschool Services Begin

**October 11**—No school or services for students (teacher in-service training day)

**November 4–5** Parent-Teacher Conferences. No school/sessions for preschoolers. If your child is NOT in ECEAP in the Everett School district, I will have a link in the next newsletter to sign up for a meeting time either on zoom or in person.

## Information and Education Spotlight:

Even though I am not the classroom teacher, I have been sending out monthly newsletters the past two school years for a few reasons. Firstly, I was hoping to inform parents more frequently about the services I am providing to their child to help him or her to make progress on the goals we developed at the IEP meeting. Secondly, as parents and care providers were asking for support for behavior and as I sought to learn more about social-emotional development of young children, I wanted to disperse the information and helpful tips I was learning to all the families. However, I tried to include too much information and it was overwhelming and became too much work to keep up with. This year I would like to continue to offer informative, helpful newsletters each month that are meaningful to you but just one section of educational information. I am including a link here for a short survey to help me select the topic of greatest interest to the families of my students. I would appreciate your time in completing the survey. Thank you so much!
